Cable Identifier CI/LCI

Reliable cable selection for de-energised and energised (live) cables

- Inexpensive solution
- Identification and selection of cables
- Well-proven system in the market
- Suitable for MV and LV cables
- Easy to use
- Safe to operate
- Very small and lightweight

DESCRIPTION

The absolutely clear and unambiguous identification of a power cable before cutting or jointing is of great importance for safety. Any mistakes can result in significant property damage, personal injury or even death of the cable technician. Additionally, an incident will often cause unplanned in-service outages for connected customers. The CI/LCI system has been developed to make the task of cable identification and selection considerably safer and easier.

The system consists of a generator unit that sends defined impulses, and a receiver unit. This receiver CI RX is connected via a flex clamp (AZF 150-CI or AZF 250-CI) in order to decouple the transmitter signal sent by the generator into the cable that is supposed to be identified. This generator CI TX transmits single pulses with a peak current of up to 100 A. The current flow of the impulses causes an electromagnetic field with a well-defined polarity around the connected power cable, which gets picked up by the flex coupler of the receiver CI RX, and which is automatically synchronised and displayed on the LED indicator scale. The only adjustment is the displayed signal sensitivity.

The following parameters are evaluated to distinguish the useful signal from interference:

- Impulse shape
- Polarity
- Amplitude
- Frequency (interval of 2 s)

The combination of using a directional clamp and the impulse parameter monitoring provides a safe and consistent cable identification and selection, regardless of any interferences.

The user only has to check the displayed signals for plausibility, i.e. typically only one of the conductors or cores has got the correct polarity while all other cables have the opposite polarity (search for the "odd one out" or for "no signal").

Any deviations from this situation must be addressed immediately by checking the whole setup.

TECHNICAL DATA

Transmitter for identification on de-energised cables CLTX

Pulse voltage 55 VDC
Pulse current max. 100 A
Pulse sequence 30 min⁻¹
Pulse width 72 ms

Power supply 100 ... 240 VAC; 50/60 Hz; 12 VDC rechargeable battery
Operating time 4 h (Li-ion rech. battery)

Charging time 6 h Weight 1,6 kg

Dimensions (W x H x D) 201 x 120 x 80 mm

Protection class IP 54

Operating temperature range $-10 \,^{\circ}\text{C} \dots +60 \,^{\circ}\text{C}$ Storage temperature range $-10 \,^{\circ}\text{C} \dots +60 \,^{\circ}\text{C}$

Relative humidity 93 % at 30 °C (non-condensing)

Transmitter for identification on energised cables LCI TX (100-240 V)

Operating voltage 100 ... 240 VAC; 50/60 Hz Pulse current 80 A

Pulse sequence 30 min⁻¹
Pulse width 1,5 ms
Weight 0,5 kg

Dimensions (W x H x D) 151 x 101 x 60 mm

Protection class IP 54

Operating temperature range $-10 \,^{\circ}\text{C} \dots +60 \,^{\circ}\text{C}$ Storage temperature range $-10 \,^{\circ}\text{C} \dots +60 \,^{\circ}\text{C}$

Relative humidity 93 % at 30 °C (non-condensing)

Universal-receiver CI RX

Sensor Flex coupler

 $\begin{array}{c} \text{dia. approx. 150 or 250 mm} \\ \text{Amplifier setting} & 3 \dots 24 \, \text{dB in 10 steps} \\ \text{Power supply} & 2 \times 1,5 \, \text{V AA batteries} \\ \text{Operating time} & > 50 \, \text{h} \end{array}$

Weight 0,4 kg
Dimensions (W x H x D) 150 x 65 x 35 mm
Protection class IP 54
Operating temperature range -10 °C ... +60 °C
Storage temperature range -10 °C ... +60 °C

Relative humidity 93 % at 30 °C (non-condensing)

Transmitter for phase to phase identification on energised cables LCI TX (240-440 V)

Operating voltage 240 ... 440 VAC; 50/60 Hz

 Pulse current
 80 A

 Pulse sequence
 30 min⁻¹

 Pulse width
 1,5 ms

 Weight
 0,5 kg

Dimensions (W x H x D) 151 x 101 x 60 mm

Protection class IP 54

Operating temperature range $-10 \,^{\circ}\text{C} \dots +60 \,^{\circ}\text{C}$ Storage temperature range $-10 \,^{\circ}\text{C} \dots +60 \,^{\circ}\text{C}$

Relative humidity 93 % at 30 °C (non-condensing)

Reliable cable selection for de-energised and energised (live) cables

CITX – transmitter for de-energised cables

CI RX – universal receiver

Complete set CI/LCI

LCI TX – transmitter for energised cables (100-240 V) and phase-to-phase identification (240-440 V)

TFS CI – twisted field sensor

Lead kit for CITX

Lead kit for LCI TX

Flexible clamps AZF 150-CI, AZF 250-CI

Transport case

There are different sets available offering various combinations of CLTX and LCLTX. There is also a free choice of flexible clamps and for the type of mains plug. The scope of delivery includes CLRX receiver, TFS CL twisted field sensor, and lead kit in a transport case.

Optional accessories

SZ-80 set Transmitter clamp for CITX generator

PAS CI Phase identification sensor

MK 37 (EU, UK, US, AUS/CN) Test lead for connection of LCI TX to power outlet

MK 55 Test lead with NH-tap (00-03) for LCI TX

CABLE IDENTIFIER CI/LCI

Reliable cable selection for de-energised and energised (live) cables

ORDERING INFORMATION		
Г	Product	Order no.
*	(please select one set)	
	Basic set CI; Cable identifier	1005670-1
	Consisting of: CI TX transmitter, CI RX receiver, twisted field sensor TFS CI, fused lead kit for CI TX, mains cable and transport case	
	Basic set LCI; Cable identification under energized conditions 100-240 V	1005671-1
	Consisting of: LCI TX transmitter 100-240 V, CI RX receiver, twisted field sensor TFS CI,	1003071-1
	fused lead kit for LCI TX and transport case	
	Basic set LCI; Cable identification under energized conditions 240-440 V	1005669-1
	Consisting of: LCI TX transmitter 240-440V, CI RX receiver, twisted field sensor TFS CI,	
	fused lead kit for LCI TX and transport case	
	Complete set CI & LCI; with identification under energized conditions 100-240 V	1005672-1
	Consisting of: CI TX transmitter and LCI TX transmitter 100-240 V, CI RX receiver, twisted field sensor TFS CI, fused lead kit for CI TX and LCI TX, transport case	
	Complete set Cl & LCl; with identification under energized conditions 240-440 V	1005673-1
	Consisting of: CI TX transmitter and LCI TX transmitter 240-440 V, CI RX receiver,	1003073 1
	twisted field sensor TFS CI, fused lead kit for CI TX and LCI TX, transport case	
_	Flexible clamp	Order no.
\forall	(please select at least one flex converter per set)	
	Flexible clamp AZF 150-CI, 120 mm	820013106
	Flexible clamp AZF 250-CI, 230 mm	820013107
	Maior soble (sub-monded for soft containing CI)	Order no.
₽	Mains cable (only needed for sets containing CI) (please select only one)	Order no.
	Mains cable EU (plug)	90020175
	Mains cable UK (plug)	2008761
	Mains cable US (plug)	2008762
	ORDERING INFORMATION	
	Optional accessories	Order no.
	Transmitter clamp for CI TX transmitter, SZ-80 set	2007615
	Phase identification sensor PAS CI	820014535
	Test lead for connection of LCI TX to power outlet, EU version, MK 37-EU	118304682
		90020744
	Test lead for connection of LCI TX to power outlet, UK version, MK 37-UK Test lead for connection of LCI TX to power outlet, US version, MK 37-US	
		90020743
	Test lead for connection of LCI TX to power outlet, AUS/CN version, MK 37-AUS/CN	2011453
	Test lead with NH-tap (00-03) for LCI TX, MK 55	820025178
	Complete CI/LCI sets for use in North America	Order no.
	For de-energised cables only: Basic set CI-USA	1008270
	Consisting of: CI TX transmitter, CI RX receiver, flexible clamp 250 mm, twisted field sensor TFS CI, fused lead kit for CI TX, mains cable (US) and transport case	
		100077
	For energised (live) LV cables only: Basic set LCI-USA Consisting of: LCI TX transmitter 100-240 V, CI RX receiver, flexible clamp 250 mm,	1008272
	twisted field sensor TFS CI, fused lead kit for CI TX, mains cable (US) and transport case	
	Complete set CI/LCI-USA containing everything	1008271
	Consisting of: CI TX transmitter, LCI TX transmitter 100-240 V, CI RX receiver, flexible clamp 250 mm,	
	twisted field sensor TFS CI, fused lead kit for CI TX, mains cable (US) and transport case
